

Solar Power

Solar power systems, the most environmentally-friendly type of power plant, generates electricity without emitting Greenhouse gases. EtherWAN's EX71000 Managed Hardened Ethernet Switch has been designed for long distance fiber transmission and is perfect for sensors (data collection), tracking systems and power meter data transmission. The EX71000's Alpha Ring (α -ring) feature also gives reliable availability in the control center.

EX71000

Managed Hardened 8-port 10/100BASE and 2-port Gigabit Ethernet Switch with SFP options

- Provides flexibility of 8-port 10/100BASE-TX/FX/BX/SFP plus 2-port 1000BASE-TX/SX/LX/BX/SFP
- MAC-based trunking with automatic link fail-over
- Supports α -ring and RSTP/MSTP/STP for Ethernet redundancy
- -40°C to 75°C (-40°F to 167°F) operating temperature range

SE6300

Hardened 2/4 ports Serial Device Server

- Best hardened model for serial to Ethernet data transmission with various communication modes
- Serial interface with optical isolation protection is available
- Wide operation temperature specification supports harsh environment applications
- Redundant Ethernet interfaces prevents Ethernet interruption
- -25°C to 70°C (-13°F to 158°F) operating temperature range
